On today’s call were

Barbara Clements (ESP Solutions Group), Co-Chair
Tuan Anh Do (San Francisco State University & AACRAO SPEEDE Committee), Co-Chair
Scott Hillman (Docufide, Inc.)
Jason Hurdlow, (Washington State University)
Michael Morris (ACT, Inc.)
Tom Stewart (AACRAO SPEEDE Committee & Miami Dade College in FL - Retired)

Tuan and Barbara started the call at about 5 minutes after the hour.

1. **Non-Residential Credit Summary:** Jason Hurdlow requested that a new simple optional data element (“NonResidentCreditHoursEarned”) be added as a child to the complex data element “GPA” which is in Core Main. He was primarily interested in it for the College Transcript.

   We discussed it at length and finally agreed to locate it immediately under “CreditHoursEarned”.

   It will affect both the high school and the college transcript, but we think its primary use would be in the college transcript.

   It would be used to show the credit hours that are earned and included on the transcript, but do not satisfy the school’s requirement for credits that must be taken at the school awarding the degree.

   Although it will not affect the standard, it would be helpful to decide at next week’s meeting if the intent is to include the total for this new data element in the existing data element “CreditHoursEarned”. This could then be noted in the next revision of the Implementation Guide.

2. **Submission of Changes to the PESC Change Control Board:** The changes approved by ERUG were also approved by the CCB. Tom made a couple of minor errors in the submission and these should be corrected on today’s call of the PESC CCB.
3. **State Tests**: Barbara distributed two documents that provide a list of tests used by the various states as well as common tests used to measure a student's command of a native language. We discussed them and plan to simplify them at this time to eliminate those tests that are used only in grades below high school. Then we could concentrate on tests used in grades 9 through 12. Both Barbara and Michael Morris will review them so we can attempt to assign test and subtest codes to them.

If we work really hard, we might get them approved and included in the January 2010 release of the PESC schemas.

The call ended at 2 minutes after the end of the hour.

**Next Face to Face Meeting** is scheduled at the PESC Fall Data Summit on Monday, October 19, 2009 from 8:30 am to noon (Eastern Daylight Time) at the Hyatt Regency Hotel on Capitol Hill in Washington, DC. For additional information on the program, and the schedule, see the PESC web site at [www.pesc.org](http://www.pesc.org).

**Next Conference Call is Monday, October 26 at 1 pm Eastern (noon Central, 11 am Mountain and 10 am Pacific) Daylight Saving Time. Call 866.352.3799; Meeting Number *7696363*;**
