On today’s call were

Tuan Anh Do (San Francisco State University & Member of AACRAO SPEEDE Committee) **Co-Chair**
Robin Greene (College Foundation of North Carolina & Member of AACRAO SPEEDE Committee)
Anne Johnston (Edudructures/Pearson in Austin, TX)
Michael Morris (ACT, Inc. in Iowa)
Tom Stewart (Miami Dade College in FL - Retired & Member of AACRAO SPEEDE Committee)

Tuan started the call at about 8 minutes after the hour.

1. **Status of New Versions of College and High School Transcript Schemas**: The new versions were approved by PESC in January 2010 and are just awaiting posting on the PESC.org web site.

2. **IELTS Scores on PESC XML Transcripts**: The International English Language Testing System test is included as a valid test on the next version of the PESC XML High School Transcript (Version 1.1.0) and the XML College Transcript (Version 1.2.0) approved in January 2010.

3. **New ERUG Co-Chair**: Barbara Clements has resigned as co-chair of ERUG but volunteered to assist in the future with any agenda items with which she has interest or expertise. Tuan is looking for someone to recommend to Michael Sessa who can be the new co-chair. Anyone who would like to volunteer should contact Tuan as soon as possible. Within the next two weeks, Tuan plans to ask Michael Sessa to appoint someone as the new co-chair.

4. **New Data Element for Transcript for Degree Conferral Date**: A new optional simple data element called “AcademicAwardConferralDate” was approved by the group to be added as child to the complex data element “AcRec:AcademicAwardType”. This will also inherit to the High School Transcript where it would most likely be ignored. This is the date of the commencement ceremony where the student, who had previously met all the requirements for the award, would have an opportunity to be presented with the diploma.

We will review this decision on the next call and then Tom will submit the form to the PESC Change Control Board to update the complex data element in the Academic Record sector library.
5. **Crosswalks**: Tuan has recently posted two newly developed crosswalks to AirSet. They are the PESC XML College Transcript Version 1.1.0 to EDI ANSI ASC X12 TS130 Transcript, and PESC XML High School Transcript Version 1.0.0 to EDI ANSI X12 TS130 Transcript.

Anne Johnston volunteered to look at the High School Transcript crosswalk to see if she finds any questions or errors.

Robin Greene will ask Kent Cooper from her agency (College Foundation of North Carolina) to take a look at it as well.

Tuan will wait at least until our next call before posting them on PESC.org. Then we’ll ask anyone who begins to use them, to alert us to any possible errors or questions.

The next crosswalks to be created will probably be for the EDI to XML for the two crosswalks mentioned above.

6. **PESC XML Transcript Acknowledgment**: We recently found a couple of errors with this schema and the Implementation Guide. The first problem is with the .xsd files posted on the PESC.org web site. They contain two minor errors that prevent them from being completely functional. Tom will ask Jeff Funck with PESC to correct those errors.

Other errors recently found are only in the Implementation Guide. Tom will work to correct those errors and will then publish a new version of the Guide. Thanks to Monterey Sims at the University of Phoenix and to Tim Tashjian at the University of Texas at Austin who discovered the errors.

If you’d like to be removed from this distribution list, please send an email request to stewartj@aol.com.

**Next Conference Call** is Monday, February 22 at 1 pm Eastern (noon Central, 11 am Mountain, and 10 am Pacific) Standard Time. Call 866.352.3799; Meeting Number *7696363*. **No call next week because of the Presidents’ Day Holiday.**
