Notes from the March 1, 2010 Conference Call

On today’s call were

- Robin Greene (College Foundation of North Carolina & Member of AACRAO SPEEDE Committee)
- Anne Johnston (Edustructures/Pearson in Austin, TX)
- Michael Morris (ACT, Inc. in Iowa)
- Tom Stewart (Miami Dade College in FL - Retired & Member of AACRAO SPEEDE Committee)

We started the call at about 10 minutes after the hour.

1. **Status of New Versions of College and High School Transcript Schemas:** The new versions were approved by PESC in January 2010 and are still awaiting posting on the PESC.org web site.

2. **Crosswalks:** Tuan has recently posted two newly developed crosswalks to AirSet. They are the PESC XML College Transcript Version 1.1.0 to EDI ANSI ASC X12 TS130 Transcript, and PESC XML High School Transcript Version 1.0.0 to EDI ANSI X12 TS130 Transcript.

   Anne Johnston reviewed the High School Transcript crosswalk and found a few errors. Tom agreed with the changes Anne suggested and has incorporated those changes in the latest revision.

   The group on today’s call agreed that we should go ahead and post the two crosswalks to the PESC web site.

3. **Typos and Technical Errors in Previously Approved Schemas:** Michael Morris mentioned that David Webber, a member of the Recruitment and Enrollment Workgroup has used an XML tool and has found several errors in the schemas already approved by PESC. Michael will advise David to include the errors, and recommendations for correcting them, in an email and send them to Tuan (with copy to Tom).

   ERUG will review them and will then forward them to the PESC Change Control Board for inclusion in a future release of PESC standards.
