On today’s call were

**Barry Billing**, Senior Business Analyst, Ontario College Application Services, & Member of AACRAO SPEEDE Committee

**Tuan Anh Do**, Assistant Director, Systems Support Group, Undergraduate Admissions, San Francisco State University (CA), Chair of AACRAO SPEEDE Committee, and Co-Chair of ERUG

**Bob Hewett**, Principal Software Engineer, Data Solutions, Pearson, and Co-Chair of ERUG

**Tom Stewart**, Miami Dade College (FL) - Retired, & Member of AACRAO SPEEDE Committee

Bob started the call at 4 minutes after the hour.

**Language for Future Communication on Admissions Application:** It was agreed on this call to add a new, repeatable, optional occurrence of the existing complex data element “Language” as child to “Person” and locate it immediately below “FirstSpokenLanguageCode”. We would mark “FirstSpokenLanguageCode” to be deprecated on the next major release of the schema.

The complex data element “Language” has four optional child data elements: “LanguageCode”, “LanguageProficiency”, “LanguageUsage” and “NoteMessage”. We would change “LanguageUsage” to be repeatable and would add the following enumerated values: “WrittenCommunication” and “FirstSpokenLanguageCode”.

**Multiple Grades for a Course in the High School and College Transcript Schemas:** Tuan agreed to sketch out a proposed solution that could give us the flexibility of the SIFA approach. We discussed it on this call and generally approved Tuan's approach. He will present this for discussion on the next call.

**Transcript Request and Response Schemas:** A request was made to update to version 1.1 of these two schemas so they would inherit changes made to CoreMain. We are awaiting a response from Doug Falk of the Student Clearinghouse. Tuan will contact him again. We will need to approve this request on the next call of the ERUG.
PESC ERUG Conference Call Notes for February 8, 2011

Need for Sponsor in the Admissions Application Schema: It was agreed to define “Sponsor” in CoreMain with five optional data elements: “SponsorOrganization”, “FundingSource”, “SponsorPerson”, “SponsorCode” and “NoteMessage”. The complex data element “Sponsor” would be added as an optional, repeatable child to “Application” and located directly above “UserDefinedExtensions”.

This would allow an applicant to provide information about an individual or an organization sponsoring the applicant.

Crosswalk PESC XML Response to Request for Student Transcript to EDI TS147: The AACRAO SPEEDE Committee submitted its recommendation for the crosswalk and Bob agreed to review it before ERUG approves it.

This will be an agenda item on the next ERUG call.

Today’s call ended at 56 minutes after the hour.

Next Conference Call is Tuesday, February 15, 2011 at noon Eastern (11 am Central, 10 am Mountain, and 9 am Pacific) Standard Time. Call 866.352.3799; Meeting Number *7696363*.

Next face to face meeting of ERUG: PESC Spring Data Summit April 26-27, 2011 in Boston at the Westin Copley Square Hotel. ERUG is scheduled for two sessions on Tuesday afternoon. For additional details, see PESC web site at http://www.pesc.org/interior.php?page_id=211.
