On today’s call were

**Tuan Anh Do**, Assistant Director, Systems Support Group, Undergraduate Admissions, San Francisco State University (CA), Chair of the AACRAO SPEEDE Committee, and **Co-Chair of ERUG**

**Bob Hewett**, Principal Software Engineer, Data Solutions, Pearson, and **Co-Chair of ERUG**

**Michael Morris**, Director of Quality Programs, ACT, Inc., and Co-Chair of PESC TAB

**Tom Stewart**, Miami Dade College (FL) - Retired, & Member of AACRAO SPEEDE Committee

Bob started the call at 4 minutes after the hour.

**Multiple Grades**: Tom participated on a conference call with three reps from Sungard an hour earlier to discuss this issue. After reviewing the latest revision of the request for multiple grades on the PESC XML Student Transcripts, they agreed that this proposal would work fine for them. Sungard has contracted with the state of Delaware to implement the PESC XML HS Transcript, but they need this modification to make it work for them.

Tom will submit the request (as outlined in last week’s call notes) to the PESC Change Control Board for approval.

**Requests to the CCB**: All the requests submitted from ERUG to the CCB on this week’s call were approved as submitted. There was some discussion about an alternate way of allowing for multiple codes identifying a school, e.g., the ATP, FICE, and ACT. We agreed that either way is fine and we should decide on the next CCB call which method will be used.

Those requests, and the request for multiple grades should be included in the next PESC release of the XML Standards in April 2011.
