On today's call were

**Tuan Anh Do**, Assistant Director, Systems Support Group, Undergraduate Admissions, San Francisco State University (CA), Chair of the AACRAO SPEEDE Committee, and **Co-Chair of ERUG**

**Bob Hewett**, Principal Software Engineer, Data Solutions, Pearson, and **Co-Chair of ERUG**

**Tom Stewart**, Miami Dade College (FL) - Retired, & Member of AACRAO SPEEDE Committee

Bob started the call at 4 minutes after the hour.

**Multiple Grades**: Tom reported that the PESC Change Control Board (CCB) approved our request to provide for multiple grades in an academic course in the PESC XML High School and College Transcript schemas.

**Next PESC Schema Release**: All of our recent requests to the CCB have been approved and Jeff Funck is in the process of updating the changes to Core Main and the appropriate sector libraries, and creating the new versions of the appropriate schemas.

Once Jeff has completed that task, he will send a copy of the updated schemas to Tom to review to insure that the updated schemas reflect what we intended to ask for. Once Tom has checked the changes and they all look good, Jeff will approve the new schemas and send to Michael Sessa for posting to the PESC web site as the April 2011 official schema release.

Once that is done, Tom will begin updating all the appropriate Implementation Guides and make them available to the PESC ERUG distribution list. Any errors Tom made will be corrected as soon as they are brought to his attention. Then Tom will send them to Michael Sessa for posting on the PESC web site.
SPRING PESC Data Summit in Boston: Bob will prepare a PowerPoint presentation to kick off the ERUG sessions in Boston. It will most likely include the work accomplished by ERUG to date as well as an agenda of items under discussion and new items that may arise during the session.

Bob asks that anyone who would like an agenda item added for the Boston meeting to send it to him.

PESC XML Negative Response to Request for Student Transcript Crosswalk: Bob reviewed the draft of the XML to EDI crosswalk and found a few errors and items to be discussed. Unfortunately, Tom had not yet reviewed Bob’s comments, so this item is deferred until the next call.

Institutional Codes Crosswalk: Michael Sessa had asked the AACRAO SPEEDE Committee and PESC ERUG to give him feedback about the need and the ability to update this code set that is posted to the PESC web site. Is it still being used and is there still a need for this info. This is a data base that indicates the code assigned to a school in a variety of code sets, e.g., CEEBACT, ACT, ATP, FICE, IPEDS Unit ID. It has not been updated in probably two decades. We agreed that we should discuss this again after Tuan and Michael Sessa have a chance to discuss the issue.

Request for Unofficial Transcript: Robin Greene asked if there might be a way to modify the Request for a Student Transcript Schema so that the requestor could ask for either an official or unofficial transcript. We discussed it briefly, but decided to discuss it again after the AACRAO SPEEDE Committee has a chance to provide input.

Today’s call ended at 28 minutes after the hour.
