**Tom Stewart**, Miami Dade College (FL) - Retired Registrar, and Member of AACRAO SPEEDE Committee

**Romy Teh**, VP, Program Management & Client Services, Xap Corporation in Culver City, CA

Bob started the call at 4 minutes after the hour.

**Repeatable Organization ID Group**: ERUG had previously approved a request to make this group repeatable when it occurs in all PESC student record schemas in the Transmission Data and other locations. The PESC Change Control Board approved the ERUG request.

However, when Jeff Funck attempted to implement the approved change, he had questions about the exact implementation. On today’s call, we approved a more specific request to implement.

We agreed to change OrganizationIDGroup to be repeatable, but to change the designation on the group to require that the code sets appear in each instance document in the same order that the code sets appear in the schema.
PESC ERUG Conference Call Notes for May 31, 2011

We would also allow that no code set be required in the instance document. This would resolve an issue with the High School Transcript in use in Canada, where many high schools have no code in any of the available code sets specified.

The Implementation Guides would still strongly encourage at least one occurrence of a code set, but it would not be required.

Tom will advise Jeff Funck of our decision.
