PESC April 2011 release of approved PESC XML schemas: ERUG and the Change Control Board have all signed off on the release. The approved schemas are now posted on Air Set so that all ERUG members now have access to the new release, i.e., .xsd files.

These files include updated versions of these schemas: College Transcript (version 1.3); High School Transcript (version 1.2), Admissions Application (version 1.1), Transcript Acknowledgment (version 1.1), Request for Transcript (version 1.1), Response to Request for Transcript (version 1.1).

PESC XML College Transcript Implementation Guide Version 1.3.0: Tom completed the first draft of the Guide and it is posted on AirSet.com for all to review. Any suggestions for improvement will be discussed on the next call. After resolving the comments, it will be approved and Tom will ask Michael Sessa to post a PDF version on the PESC.org web site with the approved schema.

PESC XML High School Transcript Implementation Guide Version 1.2.0: Tom has begun working on the new Guide and hopes to have that draft available soon.
PESC ERUG Conference Call Notes for July 19, 2011

PESC XML Transcript Acknowledgment Implementation Guide Version 1.1.0: Tom also completed the first draft of this Guide and it is posted on AirSet.com for all to review. Any suggestions for improvement will be discussed on the next call. After resolving the comments, it will be approved and Tom will ask Michael Sessa to post a PDF version on the PESC.org web site with the approved schema.

Updating the XML Schema Implementation Guides: Tuan had suggested that we release a simple document that notes the changes made, so that those documents could be released much sooner. He has contacted Clare Smith-Larson and she has agreed to work on this.

Change Control Board Request: Tom asked the Change Control Board to consider posting the April 2011 PESC approved schemas on PESC.org, without the accompanying Implementation Guides to expedite the process. Then the Guides would be posted as soon as each one is completed and approved by ERUG. The CCB tentatively approved the suggestion, pending further input from those not on the call.

Today’s call ended at 24 minutes after the hour.
