**Tom Stewart**, Retired Registrar, Miami Dade College (FL) and Member of the AACRAO SPEEDE Committee

**PESC XML Implementation Guides:** Tom had completed the drafts of three Implementation Guides prior to the last call. They were the PESC XML Application for Admissions Version 1.1.0, the PESC XML Request for a Student Transcript Version 1.1.0 and the PESC XML (Negative) Response to a Request for a Student Transcript Version 1.1.0.

Rachel had reviewed the Transcript Response Implementation Guide and had a few questions. In the introduction to the Guide, she suggested that we try to clarify what thought we are trying to convey, when we attempt to illustrate the order in which each complex data element used in the schema is presented in the Guide. Tom will work on this for the next versions of the Guides.

Rachel also found a few typos which Tom will correct before publishing the Guides on PESC.org.
The three remaining Guides noted above were approved by ERUG on today’s call. Tom will create PDF versions and send them to Michael Sessa for posting on PESC.org.

**PESC Web Services and the California Colleges e Transcript Project:** Tuan announced that this project is moving along and a conference call is scheduled this week to begin preparations for a session presentation at the October PESC Fall Summit in San Francisco.

**Posting of the Approved (April 2011 Release) PESC Standards to PESC.org:** Bob sent an email to Michael Sessa to find out and to see if there was any help that Bob might be able to provide to expedite the process.

Today’s call ended at 18 minutes after the hour.
