On today’s call were

**Tuan Anh Do**, Assistant Director, Systems Support Group for Undergraduate Admissions, San Francisco State University, Chair of AACRAO SPEEDE Committee and **Co-Chair of ERUG**

**Bob Hewett**, Principal Software Engineer, Data Solutions, Pearson, and **Co-Chair of ERUG**

**Clare Smith-Larson**, Retired Project Easier/SPEEDE Coordinator, Iowa State University

**Tom Stewart**, Retired Registrar, Miami Dade College (FL) and Member of the AACRAO SPEEDE Committee

Tuan and Bob started the call at 3 minutes after the hour.

**High School Graduation Class-Of:** Since Scott Hillman of Parchment raised this issue on an earlier call, it was decided to table this until Scott can participate in the discussion on a future call.

**PESC XML Application for Admission Schema:** A new workgroup being formed in the Federal Student Aid section of the US Department of Education’s National Center for Education Statistics (NCES) would like to use an existing simple data element “AcademicProgramDegreeLevel” in its proposed schema. However, PESC rules state that this existing data element should be renamed to “AcademicProgramDegreeLevelCode” since it has enumerated values.

The PESC Change Control Board (CCB) approved changing the name of the data element by adding a new data element to the PESC Core Main schema and to the NCES’ Registry and Repository.

This new data element will be added to the Admissions Schema as child to the complex data element “AcademicProgramDegreeLevel” and the existing data element “AcademicProgramDegreeLevel” will be marked for deprecation in the next major release of the Admissions Application schema.

This change was endorsed by ERUG on today’s call.
PESC ERUG Conference Call Notes for October 25, 2011
