PESC ERUG Conference Call Notes for April 10, 2012

MyData Specification: Jeff Alderson from the PESC Board and from ConnectEDU had suggested the potential use of MyData in our XML work in PESC. The MIME format, EDI applicability and security issues were briefly touched on.

We had a brief discussion on this, and will probably discuss it again on our next call if Jeff can make that call.

Scott Hillman: Scott announced that he will be retiring from Parchment in two weeks and will no longer be able to participate in future calls.

Release of New Schemas: Tom advised the group that the recent changes approved by ERUG and the PESC CCB will be a part of the new release of Version 1.3 of the PESC XML High School Transcript and of Version 1.4 of the PESC XML College Transcript. The release of the new schemas will be in the April 2012 PESC standards release expected by the end of April.

Future PESC ERUG calls: Since Bob Hewett now has another commitment every other week at the time of our calls, we agreed to change from weekly calls to regular calls every other week.

Today’s call ended at 40 minutes after the hour.

Next ERUG Conference Call is Tuesday, April 24, 2012 at noon Eastern (11 am Central, 10 am Mountain, and 9 am Pacific) Daylight Saving Time. Call 888.205.5513 and use participant code 952016#.
