Discussion on the call was begun by Adriana Farella, chair of the Workgroup, at 4 minutes after the hour.

**Self Reported Items Shared with Test Reporting Workgroup:** Tom distributed a report from Michael Morris, chair of the Education Test Scores Reporting workgroup, that suggested coordination of efforts with our workgroup on self reported items. Most of these dealt with activities and accomplishments reported by students registering to take the SAT or ACT tests. They are quite similar to some of the self reported items we plan to make a part of our schema.

Adriana will get back to Michael Morris and suggest that we do coordinate and she will volunteer to take the lead in that effort. This will probably result in a joint conference call between the two workgroups when we are both ready.

**Miscellaneous Questions Asked on Admission Applications:** This was again the topic of discussion on today’s call. Tom had distributed a 12 page document earlier which was used in today’s discussion.

We began on page 7 of that 12 page document with the items at the very bottom that were fill in the blank responses.

We agreed to use the question “If you have previously applied to this school, for what year were you applying?” The answer would be in the Year (CCYY) format.

We agreed to use the question “To which other graduate schools have you applied?” For the answer, we’d like to use the form of the complex data element Organization that would allow for the optional inclusion of one of the standard sets of code values, as well as the optional name of the school in free form text. The form would allow the applicant to include multiple schools in the response.

We agreed to include the three questions dealing with the admissions interview: Who conducted it? When? Where?
Notes from June 7, 2007 Call of PESC XML Admissions Application Workgroup

On page 8 of the document, we agreed to include all these questions:

HT  What is your height in inches?
HV  What is your height in centimeters?
WT  What is your weight in pounds?
WV  What is your weight in kilograms?
NP  What is the name of your local newspaper?
ND  How many dependents do you have?

Also on page 8, we agreed that the items dealing with the Letter of Recommendation were useful, but not appropriate for the transmission of an application for admission.

However, we did agree that we need to change the simple data element Applicant. Application. RecommendationReference to a complex data element with the following (all optional except for name) child data elements:

   Name
   Contacts
   Organization (with only the OrganizationName required)
   PositionInOrganization (this would be operational title of the person in the organization)

We ended this week’s call at 52 minutes after the hour.

Next Call:  On the next call, we plan to begin a discussion on the applicant’s current and previous employment. If (by some small miracle) we complete that, our next topic would be Health.

The next call will be Thursday, June 14, at noon Eastern (11 am Central, 10 am Mountain, 9 am Pacific) Daylight Saving Time. Call 800.508.7631; Room code *9976409*.
